Moving Guide for Homeowners

What to Expect

A smooth move starts with preparation and organization. Planning early can reduce stress and prevent last-minute problems.

Packing Tips

Start with items you use least. Label boxes clearly by room. Wrap fragile items in towels or blankets. Photograph electronics before disconnecting.

Utility Setup

Make a list of utilities including water, electricity, gas, internet, and trash service. Schedule shutoff and activation ahead of time.

Change of Address

Update your address with USPS, banks, insurance providers, and subscriptions.

Moving Day Essentials

Pack medications, toiletries, snacks, documents, chargers, and a change of clothes in a separate bag.

Final Walkthrough

Check closets, cabinets, and storage areas before leaving. Make sure nothing important is left behind.

Additional Tips

Arrange care for pets, use up perishable food, and donate items you no longer need.
